

9 ft Mercury Hypalon raft 2006 for sale

It is in good shape and I have fabricated a plywood bottom as I did not like the high pressure floor. Also this raft has a 2002 9.9 HP Mercury 2 stroke in excellent condition. It was tuned up and serviced by Andy's outboard in August of his year I have used the raft this season and both raft and engine have been cleaned and winterized for storage. I would like to trade for a smaller raft.

Any one willing to trade my 9' raft for a smaller one say 6-7 feet with a small outboard like a 4-5 hp, contact J Tetreault at 401-952-8272 cell Thanks
